## DETAILED ACTION

### ***Response to Amendment***

1. The filing of 17 June 2004 was applied to the following effect:
  - Claims 6, 10 and 16 are cancelled.
  - Claims 1, 9 and 15 were changed as indicated and examined on the merits.

### ***Allowable Subject Matter***

2. Claims 1-5, 7-9, 11-15 and 17-35 are allowed.
3. The following is an examiner's statement of reasons for allowance:
  - The present invention is directed to *distributed speech synthesizing*.
  - Regarding claim 1, the closest prior art of Matsumoto et al<sup>362</sup> has the client synthesizing speech signals furnished by the server, but without further parameters, so the feature of selecting parameters of the compression method utilizing a directed optimized search to minimize the amount of data transmitted between the server machine and the client machine was neither anticipated nor was it found in obvious combination in the prior art of record.
  - Regarding claims 9, the closest prior art of Matsumoto et al<sup>362</sup> discloses the server generating prosody data corresponding to the normalized text and transmitting the

prosody data to the client machine but fails to anticipate or render the above underlined limitations obvious.

- Regarding claim 15, related to the findings for claim 10, above, the feature that the synthesizing or concatenating decompressed acoustic units depending on the prosody data from the server was not found to be anticipated nor was it found in obvious combination in the prior art of reference.
- Claims 2-5, 7-8, 11-14 and 17-35 are allowed because they depend on claims that were allowed.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
